Subject: RE: "Please Submit" Weekly Report Items by 9:00 Wed 4/1

Here are OSCP's items for the weekly:

EPA Announces Next TSCA SACC Meeting. In website and listserv announcements posted March 30 and in a Federal Register notice planned for publication April 3, EPA announced that the Toxic Substances Control Act Science Advisory Committee on Chemicals (TSCA SACC) will meet April 27-30, 2020, to peer review EPA's draft risk evaluation for asbestos. This will be a virtual public meeting, with participation by phone and webcast only, and there will be no in-person gathering for this meeting. The TSCA SACC provides EPA independent advice and recommendations on the scientific basis for risk assessments, methodologies, and pollution prevention measures and approaches for chemicals regulated under TSCA. At the meeting, the TSCA SACC will review EPA's draft risk evaluation and associated documents.

Mercury Inventory Report Published March 30, 2020. OCSPP published the [2020 Mercury Inventory Report](#) on the supply, use, and trade of mercury in the United States in advance of its April 1, 2020 statutory deadline under the Lautenberg Act amendments to TSCA. The report presents aggregated data submitted on imported mercury, mercury manufactured in the United States, imported mercury-added products, mercury-added products made in the United States, and mercury used in manufacturing processes. The inventory report also provides a broad view of U.S. mercury stored, sold, and exported, as well as industry sectors and countries involved in the supply, use, and trade of mercury. This report is the first inventory published after finalizing the mercury inventory reporting rule. The data presented in the report, therefore, comes directly from the companies that are using, manufacturing, or importing mercury, providing EPA and the public with more reliable and complete information on the supply, use, and trade of mercury in the United States than previously available, including data relevant for U.S. implementation of the Minamata Convention on Mercury.

Subject: "Please Submit" Weekly Report Items by 9:00 Wed 4/1

[NOTE: Again this week, weekly report items are due to OCSPP IO by 9:00 on Wednesday. Thank you.]

Dear Colleagues,

Here is a link to a draft of the Administrator's Weekly Report for April 3. It is a Word document in SharePoint and includes items from last week's report that are still relevant. (Potential items are also listed below in a table.) Please edit the existing items and insert blurbs on anything else that should be listed. If you would prefer, you can continue to submit your updates and blurbs in a Word document or in e-mail text.

<https://usepa.sharepoint.com/:w/s/OCSPP/Actions/EVr1tzmn2Q5DhtWExesmrBQB9I0kWkz6hu6DVQp7sdLBuA?email=malloy.ruth%40epa.gov&e=UpH70v>

Again this week, weekly report items are due to OCSPP IO by 9:00 on Wednesday, April 1. Please notify me and Tom Tyler if you make an update to the SharePoint document and cc: Derrick Bolen, Mary Hanley, Melissa Grable, Cheryl Dunton and Allison Dennis. Send Word documents and e-mail text submissions to the same people.

Thank you for trying to use SharePoint to compile the weekly report. Please let us know if you have questions or need anything else. We also welcome other suggestions in the spirit of continuous improvement.

Ruth

OCSPP Weekly Report to Administrator

*Programs are responsible for identifying and submitting blurbs on appropriate topics.
IO provides suggestions as a courtesy.*

Due Wed 4/1 at 9:00

Potential April 3 Weekly Report items covering April 6 – April 17

Office/Staff	Date	Topic	Request/Notes	PrevRpt
First Week – April 6-April 10				
OPP	April	Broflanilide – New AI	OPP, please provide a blurb [NOTE: This	

			action moved to April 2020]	
Second Week – April 13-April 17				
Uncertain Timing – Please update or plan ahead
